Start Learning Html & CSS

Unleash the web wizard within with HTML and CSS, the dynamic duo of digital design! HTML weaves the tapestry of structure, while CSS paints the canvas with style, unleashing jaw-dropping websites that dance with color and flair. Together, they create a symphony of code, transforming pixels into captivating online experiences!

2 WEEKS

HTML

1. ADDING ELEMENTS TO THE WEB PAGE
2. STRUCTURE OF A WEB PAGE
3. HYPERLINKS
4. ATTACHING MEDIA
5. TABLES
6. FORMS

2 WEEKS

CSS

1. STYLING THE WEB PAGE
2. BOX MODEL
3. TYPOGRAPHY
4. FLEXBOX
5. RESPONSIVE DESIGN
6. ANIMATIONS

Live Classes 3 Days In a Week In course

Course Project
Portfolio Creation

Create Portfolio

Learn Basics Of DSA

Harness the power of algorithms and data structures, the secret weapons of the coding elite! With DSA in your arsenal, conquer complex problems with lightning speed, unlocking a realm of efficiency and innovation that will make your code shine like a supernova!

Data Structure & Algorithm

1 WEEKS

1. TIME AND SPACE COMPLEXITY
2. ARRAYS
3. STRINGS
4. BINARY SEARCH
5. BUBBLE SORT
6. RECURSION

2 Mentorship Session in a Week in Course

Course Project

Visualizer

Learning Java Script

Javascript, the dynamic sorcerer of the web, breathes life into static pages with its enchanting spells of interactivity and animation. Unleash its power, and watch your website ignite with a blaze of creativity that captivates users like a mesmerizing technomancer!

Introduction To Java Script

1-2 WEEKS

1. DATA TYPES
2. VARIABLES (PURPOSE OF USING VARIABLES)
3. OPERATORS
4. CONDITIONAL STATEMENTS
5. LOOPS
6. USEFUL BUILT-IN METHODS IN JAVASCRIPT

Advance Concepts

7-8 WEEKS

1. OBJECT DOM MANIPULATION
2. OOPS
3. ES6 INTRODUCTION
4. JAVASCRIPT ASYNC AND PROMISES

2 Doubt Clearing Session In Course

Course Project

Calculator

Tip Calculator with Javascript

React

Enter the realm of React, where components unite to form a majestic symphony of user interfaces that mesmerize with their speed and elegance. Empower your web development journey with React's wizardry, and command the forces of UI magic like a true digital sorcerer!

Introduction To React

4 WEEKS

1. INTRODUCTION TO REACT
2. REACT COMPONENT
3. CSS IN REACT COMPONENT
4. COMPONENT LIFECYCLE
5. CONTEXT API

React Routing & Redux

4 WEEKS

1. AXIOS
2. REACT ROUTING
3. REACT HOOKS
4. INTRODUCTION TO REDUX
5. LOCAL AND SESSION STORAGE

2 Practice Session With Industry In Course

Course Project
Interactive Dashboard

Make a Tip Calculator TO DO with
React
